

Presenting Port Digitalization Experience, Pelindo Shows Single System 4.0 at the Hannover-Messe 2023 Exhibition

Admin -- 24 April 2023

Hannover, Germany (21/04) - PT Pelabuhan Indonesia (Persero)/Pelindo through its subsidiary, PT Pelindo Solusi Digital, participated in the Hannover Messe 2023 exhibition by presenting Port Digitalization experience with Single System 4.0. Pelindo Solusi Digital's participation shows Pelindo's position in supporting the development of Port Digitalization in Indonesia through several innovative Pelindo Solusi Digital products displayed at the exhibition.

Hannover Messe is the largest industrial exhibition in Europe which is held at the Hannover Exhibition Center, Hannover, Lower Saxony, Germany. At this year's exhibition, Indonesia is believed to be the Official Country Partner. This exhibition took place from 17 April - 21 April 2023 and was attended by 90 participating countries, which was officially opened by the President of the Republic of Indonesia, Joko Widodo with German Chancellor Olaf Scholz.

"Pelindo welcomes participation in the Hannover Messe 2023 which is the largest technology industry exhibition showcase on a global scale. Pelindo through Pelindo Solusi Digital opens cooperation with partners and potential partners to collaborate in providing IT services that are not limited to the development or research of new technologies, but include joint marketing to expand the market share of port digitization services on a global scale," said Natal Iman Ginting as Director Main Pelindo Digital Solutions.
