

Actively Supporting NLE Programme, Pelindo Regional 4 Receives Appreciation

Admin -- 31 January 2025

MAKASSAR, 23 January 2025 PT Pelabuhan Indonesia (Persero) Regional 4 has been actively collaborating and participating in supporting the implementation of the National Logistics Ecosystem (NLE) programme nationally and for these efforts has made achievements by winning appreciation and awards.

The award was given by the Head of the South Sulawesi DGCE Regional Office, Djaka Kusmartata and received by Pelindo Regional 4's Division Head of Operations Services, Yusida M. Palesang at the 2025

International Customs Day Commemoration event held at the State Finance Building II Makassar, Wednesday (22 January 2025).

Pelindo Regional 4 Executive Director Abdul Azis expressed his gratitude for the award. According to him, this award is a form of appreciation for the hard work of the entire Pelindo Regional 4 team in realising collaboration and innovation to support the smooth running of the national logistics ecosystem.

'We are committed to continue supporting the implementation of the NLE programme to accelerate the logistics process, improve efficiency, and reduce national logistics costs,' he said.

Djaka Kusmartata, Head of the DGCE Regional Office of South Sulawesi, said that this activity aims to strengthen cross-sector coordination to support the optimisation of the national logistics ecosystem.

'Pelindo has provided optimal performance support so it deserves appreciation. Moreover, Pelindo has also supported the role of the Directorate General of Customs and Excise (DGCE),' he said.

He revealed that the award was given as a form of recognition for the collaboration and active participation of Pelindo Regional 4 in supporting the implementation of the NLE programme nationally.

The National Logistics Ecosystem or NLE is a government programme that aims to synergise the entire logistics process in Indonesia through an integrated digital platform. The programme involves various stakeholders, including ministries/agencies, local governments, business players, and logistics operators such as Pelindo Regional 4. In its implementation, NLE is expected to simplify logistics procedures, increase transparency, and create a more competitive logistics ecosystem in Indonesia.

Pelindo as part of a State-Owned Enterprise (SOE) that drives the national logistics sector continues to innovate in providing the best service to customers and supporting digital transformation in the logistics sector. Through system integration, infrastructure optimisation, and collaboration with stakeholders, Pelindo Regional 4 has successfully demonstrated its strategic role in supporting the success of the NLE programme.

Division Head of Operational Services of Pelindo Regional 4, Yusida M. Palesang added, in the future it will continue to improve services and strengthen synergies with various parties to support the creation of a more efficient and modern logistics ecosystem, especially in Eastern Indonesia (KTI).

With this award, Pelindo Regional 4 has further strengthened its position as one of the key players in the transformation of national logistics, especially in eastern Indonesia. The commitment to continue contributing to the government's strategic programmes is the main motivation for Pelindo Regional 4 in providing better and more innovative port services.
